A WIRELESS FROM WASHINGTON

Majority of Senators Favor the Joint Statehood Bill.

THE SENATOR'S SOLILLOOUY

Reports from the headquarters of the Joint Statehood League are to the effect that large numbers of petitions have gone in to the committees of both houses in Washington, from all parts of New Mexico and Arizona, and in addition dozens and dozens of people of the two territories are writpersonal letters to the different members of the house and senate favoring the passage of the bill.

Ex-Delegate Rodey, in addition to sending out hundreds of circulars favoring joint statehood, and attending to other matters of the league, has found time to write letters to the members of the house and senate, with over ninety per cent of whom he has a personal acquaintance, urg-

ing the passage of the bill.
The latest advices from Washington are to the effect that a program has been arranged, which will result in the bill coming up some time be-tween the 4th and 10th of January, under a rule. A rule in the house means that the majority in the house will concede so many hours for de-bating on the bill; and then call for girls, but a vote on the bill.

It is not certain that the demotwenty-five of them are said to favor the bill, and unless party reasons are brought to bear, these twenty-five will in all probability, vote for its passage. But even if they should not it through.

The bill will, no doubt, come up in the senate within a few days of its passage in the House of Representatives. If the bill is reported to the house in the form that Senator Beveridge reported it to the senate, it will not be amended in the senate otherwise it will.

Among the new United States senators, it is said that Senator Carter of Montana, Henenway of Indiana, Brendgee and Bulkley of Connecticut, Burkett of Nebraska, Sutherland of Utah, and Piles of Washington, are in favor of the joint statehood bill, while Senators Warner of Misseuri and Nixon of Nevada may yet be induced to support the bill, as at presen, they are neutral. The position of Senators Frazier of Tennessee and Gearion of Oregon, are unknown, while it is certain that Senator Flint of California will oppose the passage of the bill.

It is also thought that Senators Calberson and Bailey of Texas, and United States, and the season just borses and hides shipped out of the States, and the season just territory during the year just closed: age of the bill.

national administration at Washington has sent out word along the line, through the different office holders in New Mexico and Arizona, that it will not be considered proper or pleasant for them to oppose joint statehood, from now on, either in their official capacity, or through the tenures of their offices, and as a result of this decree being sent forth, some little opposition that was once manifest from a few office holders out of the territory during the

Personally, I think that mated price. The wool clip has been much above the average, being of a and the rest of the country. Anyway, President Roosevelt is in favor of joint statehood; those two territories are a long way from my state. and, besides, I don't believe it would be beneficial to my political health to antagonize the chief executive of these United States, and as I'm half inclined to think he's right, anyway, f guess I'll just support that little measure, for my friend Teddy's sake."
